

## First All-American Offensive is Started on Southern End of the Battle Line in France

### ATTACK CARRIED OUT BY FIRST ARMY LED BY GEN. PERSHING

Americans Capture Ten Villages and Advance Several Kilometers on Front of About Ten Miles in Sector Close to Boundary Line of German Lorraine.

#### METZ IS BELIEVED TO BE OBJECTIVE

(By United Press)

London, Sept. 12.—An American offensive was begun on the Meuse and the Moselle rivers at five o'clock this morning.

The region of the Meuse and the Moselle is on the Toul front, before the important place of Metz in German Lorraine.

This is the point where the American concentration has been on for months.

The American line is within two or three miles of the German border.

At some points the line actually touches the Lorraine line. The battle front is approximately 15 miles from Metz.

Metz has been an American objective, according to most theories of the plan of the high allied command.

At his point, it has been predicted the Americans might strike the blow that would be aimed at a drive toward the Rhine, this being the shortest route to the great industrial valley.

It was announced last week that 93 per cent of the American rifles in France were concentrated under direct command of General Pershing.

#### Attack Starts at 5 A. M.

With the American Army on the Metz front, Sept. 12.—The first American offensive started at five o'clock this morning between the Meuse and Moselle rivers.

The attack was carried out by the first army under the direct command of General Pershing.

The French are assisting at the right and also toward the left.

This dispatch is filed from St. Michel salient.

The Americans have captured ten villages and advanced several kilometers on a front of about 10 miles.

The immediate objective of the attack is limited to a specific line. Tanks are in action. The greatest number of American troops and artillery yet involved in any single operation is engaged in the attack.

The attack followed four hours of the most terrific artillery preparation starting at 1 a. m. There was rain during the night, and the flashes from the guns concentrated around the salient, brilliantly lighted up the storm cloud.

Everything within the salient 50-kilometer arc was under fire. In addition to the artillery bombardment, airplanes dropped bombs on all railroad centers, bridges, hangars and munition supply centers in the salient which is one of the strongest fortified points on the front.

American infantry attacked behind a heavy barrage timed to go forward 100 meters every 40 minutes.

#### BULLETIN

First Field Army Consists of 5 Corps, Totaling 600,000

Part of the first field army which is understood to be engaged in the big Metz drive, gains the credit for the first all-American offensive.

It consists of five corps of six divisions each, totaling 600,000 men. But how many of the divisions are engaged has not yet been disclosed. The make-up of the first field army as announced recently included the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd, 64th, 65th, 66th, 67th, 68th, 69th, 70th, 71st, 72nd, 73rd, 74th, 75th, 76th, 77th, 78th, 79th, 80th, 81st, 82nd, 83rd, 84th, 85th, 86th, 87th, 88th, 89th, 90th, 91st, 92nd, 93rd, 94th, 95th, 96th, 97th, 98th, 99th, 100th.

### HAYS DENIES HE SAID IT

Chairman Urges Partisanship be Kept Out of War

(By United Press.)

Washington, Sept. 12.—Keep partisanship out of the war and the war out of partisanship policy. Let no political party spend their time accusing the other of disloyalty when both are loyal.

In this fashion Chairman Will Hays of the republican committee today wrote Joseph Tumulty, the president's secretary denying alleged reports that he had told republican chairmen at Chicago that the leucocratic party would accept even a compromise of the war to insure the election.

### MEN KILL TWO BIRDS WITH 1 STONE TODAY

Register Twice While in The City, One For Military Purposes and One For Voting

#### CLERKS SWAMPED BY VOTERS

The clerks in charge of the registration of voters for the fall election were given a work-out today and the constant stream of registrants who visited the headquarters shortened considerably the still lengthy list of the unregistered of the county.

The speed with which the voters swooped down upon the clerks was attributed to the fact that the downtown district of the city was filled with men who were called for military registration and taking part of the day off from their regular business, were "killing two birds with one stone." The registration office will be open until the evening of October 7 when the last opportunity of voters to register will be given. Although nothing definite has been settled concerning the registration office keeping open at night, this will probably be done during the last few nights of the registration period in order that men who find it inconvenient to leave their work during the day, may prepare themselves to vote.

### ONLY HEART FAILURE WILL PREVENT VICTORY

Premier Lloyd George Declares The Work is Over, in Address at Manchester, Eng.

#### NEWS IS DISTINCTLY GOOD

Manchester, Eng., Sept. 12.—"The work is over," Premier Lloyd George declared in an address today.

"The news is distinctly good—really good," he said.

"The casualties in the advances were less than one-fifth of the number suffered in the advance of 1916. The difference between 1916 and 1918 is the unity of command."

"The presence of the Americans additionally depressed the Germans. There is no finer feat in the history of English industry than the transportation of the Americans. The Germans did not expect more than two divisions. Hundreds of thousands of Americans are there now and the Germans know it. They are the advance guard of at least 10,000,000 more."

### JACKIES BAND FOR A NIGHT CONCERT

Famous Musical Organization Will be in Rushville Next Wednesday Evening

#### STATE LIBERTY LOAN TOUR

Will Arrive Here at 6:40 From Shelbyville and Leave at 10:20 For Conersville

The famous Jackie's band from the Great Lakes Naval Training station will be here for a night concert next Wednesday evening, in the interest of the Fourth Liberty Loan campaign.

The news that the celebrated band will be here in the evening brought joy to the Liberty Loan officials of the county because when the band came here during the Third loan campaign, its itinerary called for a short afternoon concert. The Graham Annex auditorium was filled with people for the event but many were unable to hear the concert because of the time it was given.

The band's itinerary in Indiana was made public today by the Indiana headquarters for the Fourth Liberty Loan. It will begin its tour of the state at Danville next Monday morning and will close at Hammond Friday, October 4.

The band will arrive here from Shelbyville over the Pennsylvania railroad at 6:40 o'clock next Wednesday evening. It will leave here at 10:20 o'clock for Conersville over the Indianapolis and Cincinnati Traction line.

The Jackie's band's reputation preceded it, even on the first tour of the state, and this time its appearance will be met by mammoth crowds wherever the sailor boys appear. The band plays both martial and popular music in a way that only students of the famous John Philip Sousa can play.

The band will be under the direction of Col. Charles A. Garrard of the Indiana state militia, during its two weeks trip through this state. During the period from September 16 to October 4, the band will be almost constantly on the move and will cover an immense railroad mileage.

Indiana Liberty Loan officials believe that the band will serve to arouse a tremendous wave of patriotism that will have a favorable effect in stimulating the subscription for bonds.

### COMMISSIONED A CAPTAIN

Dr. H. A. VanOsdol Ordered to Report to Camp McClellan, Ala.

Dr. H. A. VanOsdol of Indianapolis, who is well known in this city, has received a commission in the medical department of the United States army with the rank of captain.

Capt. VanOsdol who for a number of years has practiced as an ear, eye and throat specialist, has been ordered to be ready to report within the next ten days at Camp McClellan, Ala., where he will have charge of a section of the base hospital to which he will be attached. Mrs. VanOsdol, who is the daughter of Mr. and Mrs. E. A. Lee of this city, will reside in Alabama while her husband is stationed there.

### BUY BONDS TO THE LIMIT IS KEYNOTE

Preparations Are Being Made For Active Canvass of County to Begin Next Saturday

#### LOAN WORKERS MEET AT 1:30

Local Officials Informed Whole State Will Start Early to Roll up Subscriptions

"The cornerstone of war is High Credit and our credit can be maintained only by the purchase of Liberty Bonds to the limit."

Accepting the French maxim as the keynote of the Rush county Liberty Loan campaign, leaders are issuing instructions to canvassers and township leaders by which each of the solicited will have the facts put squarely before them. It will not suffice for them to purchase a bond or two, officials declare, but they must buy to the limit.

Although the quota which the county will be expected to raise in a comparatively short time has not been received from the state headquarters, county officials speculating on its amount are confident that it will at least reach the million dollar mark.

Messages from William Wade, state director of sales, to Rush county loan officials, declare that the entire state has been mustered into action and in every county the organization is in harness ready to be thrown into the fray, Saturday, when the opening of the two weeks pledge-taking will be made simultaneously throughout the state.

Liberty Loan posters are expected to arrive the first of the week and although national orders withhold their release in states where the drive will not be started until the official day—September 28—by special permission and to assist in the taking of pledges an earlier release will be allowed in Rush county as well as other Indiana sections.

Every effort is being made on the part of the county officials to have a good representation at the called meeting of the entire county organization which will be held in the assembly room at the court house Saturday afternoon at 1:30. At the same time, the meeting of the county council of defense will be held in connection with the loan meeting.

### TWO LOCAL BOYS IN FRANCE

Lieut. Harry Petry and Wilmer Hall Arrive Safely Overseas

Word of the safe arrival of Lieut. Harry Petry, son of Mrs. Ruby Petry of this city and Wilmer Hall, son of Mr. and Mrs. R. J. Hall in France who reside north of the city was received today.

Lieut. Petry who was a member of the first officers training camp at Fort Harrison, was appointed to a lieutenancy in the infantry and after being stationed at Camp Taylor, Ky., for several months, the last few weeks before his departure for the east was spent at Camp Sherman, Chillicothe, O. Private Wilmer Hall left his city for training quarters early in the spring.

### RUMOR PETROGRAD IS TAKEN

(By United Press.)

### MEN OF DRAFT AGE REGISTER TODAY

Registration For Military Service Proceeds Rapidly, Big Majority Registering by Noon

#### HIGH SCHOOL BOYS INCLUDED

Official Order Received, Specifying Only Men From 19 to 37 Shall be Classified Now

Rush county's latest contribution to the war against Germany and her allies, in the form of manpower, registered for military service today.

Indications this afternoon were that the big majority of the men affected by the new manpower bill had registered. In a number of voting precincts, more had registered before noon than registered June 5, 1917, when men between twenty-one and thirty-one years of age were called.

The county army selection board has received half of its allotment of the third edition of questionnaires and will be ready to begin mailing them to the new registrants when the order comes. The date for mailing questionnaires has not been announced; neither has it been stated by the provost marshal general what per cent shall be mailed out each day.

The board this morning received the official order from Washington confirming newspaper dispatches printed yesterday to the effect that only registrants between nineteen and thirty-six inclusive would be classified now. This means that the task confronting the local board and the legal advisory and its assistants, will not be as big as first indicated. Both boards were making preparations to perform a gigantic task, but the new order means that the job will not be as big a one at it was after the first registration when men of ages covering a ten-year period registered. Men to be classified at once will be of ages covering a period of only eight years.

Fifteen members of the senior department of the Rushville high school were included in the class of "stalwart young Americans" who were "mustered out" for registration today.

For the first time in the history of the school such an event took place and as these boys of eighteen and nineteen years filed out to their various registration headquarters, a thrill of patriotism and pride ran through the entire assembly although little demonstration was made.

The newly acquired selective men, however, will be returned to school and will be allowed to continue their high school course, if they desire despite the fact that before the term has elapsed, some of the number may be in uniform and drawing a privates pay.

The official order specifying that only men of certain ages should be classified at once, is as follows:

"Under the authority of the act of congress approved August 13, 1918 the president directs that, in calling and drafting for military service, the persons who register September 28, 1918, or at any time thereafter in pursuance of the proclamation of the president dated August 3, 1918, shall be classified as follows: Class I—Men who on September 12, 1918, shall have attained their nineteenth birthday and who shall not have attained their twenty-first birthday shall be classified as Class I."

## SHOWS IMPERATIVE NEED OF FARM HELP

County Agent Says 1919 Wheat Crop  
 Will Suffer if More Laborers  
 Are Not Found

### CALLS ON COMMUNITY TO AID

**Declares Many Men Who Once  
 Farmed Can Lend Assistance—  
 Other Suggestions Made**

There are still big demands on  
 farms throughout the county for  
 help to assist in putting away the  
 county's wheat crop this fall, ac-  
 cording to a statement made today  
 by Marion Detrick, county agent.

"It is a necessity on our part of  
 the war program that the wheat  
 acreage be increased," said the  
 agent. "The farmers are ready to  
 do their part in the food campaign  
 but they cannot do the impossible.  
 If they cannot get the labor they will  
 do all they can and will be forced to  
 leave the remainder undone. The re-  
 sult will be a decrease, rather than  
 an increase in the production. The  
 individuals of the community should  
 feel the responsibility in this mat-  
 ter so that with united effort, Rush  
 county will go over the top in this  
 as in other war measures.

"Experienced farm hands engaged  
 in other work can arrange to leave  
 their jobs for a short time to help  
 sow wheat. Employers of such men  
 can well afford to let them off at  
 their request or even suggest that  
 they take some time for it.

"In many cases, good men, able to  
 stand farm work though inexperience,  
 may be found useful.

"Farmers who can sow no wheat  
 or of necessity only a small acreage,  
 can offer their services to their  
 neighbors who want to put in a large  
 crop but are short handed.

"All who are willing to give some  
 time for this work are asked to  
 leave their names, addresses and  
 telephone numbers and date avail-  
 able at the county agents' office,  
 either by letter, in person or by  
 phone—No. 1761."

## SUPPLY OF WALNUT TREES DIMINISHING

Even if Present Demand For Gun-  
 stocks Ceases, Wood Has Many  
 Other Good Uses

### THIS YEAR HAS HEAVY CROP

Washington, Sept. 12.—As the re-  
 sult of cutting to meet the almost  
 world-wide demand for gunstock  
 material, the supply of black walnut  
 trees is rapidly diminishing over  
 practically the entire range of the  
 tree in the United States. Coupled  
 with this warning, the Forest Ser-  
 vice of the United States department  
 of agriculture announces that the  
 crop of walnuts is particularly  
 heavy this year, so that there is a  
 splendid chance to gather or buy  
 seed for planting.

The very high lasting qualities of  
 the wood, and the fairly rapid rate  
 of growth of the tree, in good loca-  
 tions, make black walnut one of the  
 most desirable trees to plant on the  
 farm. Furthermore, it is admirably  
 fitted to make unused portions of  
 the farm productive: for small  
 patches of rough, gullied, or other  
 waste land, if the soil is good and  
 not too thin or dry, are ideal  
 planting places.

The method of planting black wal-  
 nut is simple, and the return is likely  
 to be considerable. There is a  
 probability of the timber's retaining  
 its best value on the market. More-  
 over, in case it is not sold for tim-  
 ber, the tree yields durable wood  
 which may be used for posts and  
 for a wide variety of purposes about  
 the farm. The reason it is so prized  
 for gunstocks is because it works  
 readily in the turning lathe, takes a  
 high finish, and does not splinter  
 when struck by projectiles.

## PLEDGE 50 PERCENT INCREASE IN WHEAT

Washington Township Farmers  
 Promise to do Their Part in Meet-  
 ing Government Request

### J. A. MCARTHY IS SPEAKER

Plans for an increase in the wheat  
 crop of 1919 were made at a meet-  
 ing of the Washington township farm-  
 ers which was held yesterday in  
 the hall in Raleigh.

J. A. McCarthy of the Purdue Ex-  
 tension department, who was pre-  
 sent, addressed the meeting and af-  
 ter an excellent address in which an  
 appeal was made for a big increase  
 in the acreage, a fifty per cent in-  
 crease was promised by the members  
 of the township organization present.

Similar pledges from various  
 other townships through the county  
 indicate that Rush county will put  
 forth such a crop of wheat in 1919  
 as has never before been rivaled in  
 the agricultural history of the coun-  
 ty.

## MUST FILE COPIES WITH ALL AFFECTED

Petitioners Before Public Service  
 Commission Are Affected By a  
 Recent Ruling

### ONE GOVERNING DONATIONS.

The state public service committee  
 through its secretary, Carl H. Mote  
 has sent to the Daily Republican co-  
 pies of two orders recently made by  
 the commission, one providing all  
 petitions filed with the commission  
 shall also be filed with all organiza-  
 tions affected and another that  
 "subscriptions, donations and grati-  
 tudes" can not be charged up to gen-  
 eral expenses of corporations.

The first order makes it manda-  
 tory on the part of the petitioner to  
 file a supplementary copy of peti-  
 tions, pleadings or papers presented  
 to the commission, with the clerk of  
 each municipality or town affected or  
 involved, with each newspaper and  
 the secretaries of commercial orga-  
 nizations therein, and with every party  
 affected, or the legal representa-  
 tive thereof.

The second order is intended to  
 purposes from the operating ex-  
 penses of public utilities. Hereto-  
 fore, such subscriptions have been  
 charged up as operating expenses,  
 whereas they should be shown as  
 paid out of the net income.

## COUGHED FIFTEEN YEARS

Coughs that hang on and grow  
 worse in the night and weaken the  
 sufferer are relieved by Foley's Hon-  
 ey and Tar oftener than by any other  
 remedy. R. F. Hall, Mable, Va.,  
 writes: "For 15 years I was afflict-  
 ed with a troublesome bronchial  
 cough and irritation of the throat.

Foley's Honey and Tar relieved me  
 after taking one bottle the cough  
 ceased and has not returned." No  
 medicine stands higher as a family  
 remedy for colds for children and  
 grown-ups. F. B. Johnson—Adf. 3

## Emphatically Asserts Worn Out, Lagging Men Can Quickly Become Vigorous and Full of Ambition

7 A DAY FOR 7 DAYS

Don't blame the man who is perpet-  
 ually tired; his blood needs more red  
 corpuscles and his brain and nerves  
 are craving for food.

Given the right kind of medicine,  
 any tired-out, inactive, lagging fel-  
 low can quickly be made into a real-  
 live, energetic and even ambitious  
 man.

So says a student of the nervous  
 system who advises all men and  
 women who feel worn out and who  
 find it hard to get up ambition  
 enough to take a regular job to get a  
 package of Bio-feren at any drug-  
 gist.

This is the new discovery that  
 pharmacists are recommending be-  
 cause it is not expensive and speedily  
 puts vigor and ambition into people  
 who despair of ever amounting to  
 anything in life.

People whose nerves have been  
 wrecked by too rapid living, too much  
 tobacco or alcohol, have regained their  
 old-time confidence and energy in less  
 than two weeks.

No matter from what cause your  
 nerves went back on you; no matter  
 how run down, nervous or tired out  
 you are, get an original package of  
 Bio-feren at once. Take two tablets  
 after each meal and one before bed-  
 time—seven a day for seven days—  
 then one after each meal till all are  
 gone.

Then if you still lack ambition; if  
 your nerves are not steady and you  
 haven't the energy that red-blooded,  
 keen-minded men possess, your pur-  
 chase money will be gladly returned.

**Note to Physicians:** There is no  
 secret about the formula of Bio-feren.  
 It is printed on every package. Here  
 it is: Leechin; Calcium Glycero-  
 phosphate; Iron Peptonate; Mangan-  
 ese Peptonate; Ext. Nux Vomica;  
 Powdered Gelatin; Phenolphthalein;  
 Oleoresin Capsicum; Kola.

## An Engine Is No Better Than Its Cylinders and Pistons

You don't have to send your Ford out of the  
 City to have it Re-bored.

Having recently installed in our shop a new  
 machine for re-boring Ford motors we wish  
 to call your attention to the fact that we are  
 now prepared to re-bore and fit new over-  
 size pistons and rings in your Ford motor.

### These are the results you obtain by re-boring

- You increase power from 10 to 50 per cent.
- You eliminate that elusive knock.
- You stop the escaping gas around piston rings which abnormally heats the crank case.
- You stop the admission of auxiliary air past the piston rings which dilutes the mixture.
- You use less lubricating oil.
- You use less gasoline.
- You drive slower on high gear.
- You take hills with perfect ease and grace.
- You attain greater speed on level.
- You eliminate the over-heating.
- You stop fouling your plugs.

Our Price is Reasonable.

Bring in your motor and let us fix it up

## Attack Carried Out by First Army Led by Gen. Pershing

Continued from Page One

The Americans and French also  
attacked on the western side of the  
St. Mihiel salient, pushing the enemy  
back in the region of Tresmes at the  
northern base of the salient.

This action was on a front of 12  
kilometers. The French are on the  
peak of the salient keeping pace  
with the Americans, sticking in the  
sides.

More than 100 tanks, manned by  
Americans, aided in smashing the  
powerful reinforcement of the first  
line of the enemy in the region of  
St. Bauffant, 12 miles east of St.  
Mihiel.

The tanks drove forward behind a  
dense smoke barrage.

The town of Montsec, seven miles  
east of St. Mihiel, was kept shrouded  
in a smoke barrage all morning to  
prevent effective German observation.

The weather is ideal for the of-  
fensive.

The allies have complete suprema-  
cy in the air.

Artillery and tanks so smashed  
the enemy first line that little infan-  
try resistance was encountered. Prison-  
ers indicated they had been expect-  
ing an attack but did not know  
when or where it would be. The first  
village was taken by the Americans  
within 45 minutes.

The first American air reserves  
working with the French assumed  
the offensive with the infantry. At  
9 a. m. they reported not a single  
Boche plane in the sky. Americans  
observers and bombers worked un-  
molested under the escort of planes.

Americans narrow gauge railway  
trains and wagons were rushed up  
with ammunition. All other work  
was done by the Americans, making  
this the first all-American move-  
ment since the beginning of the war.

### La Fere is Outflanked

London, Sept. 12.—With the occu-  
pation of Travecy and the heights  
dominating the country to the south,  
General Petain's forces have out-  
flanked the important German position  
at La Fere. This advance by the  
French over a narrow front of  
only two miles presages the evacua-  
tion of La Fere by the Germans,  
and general weakening of their lines,  
before the vital stronghold of St.  
Gobain forest.

Slowly the allies are pushing the  
enemy back on his Hindenburg line  
defenses from La Fere to St. Quentin,  
slight advances being made by  
both the French and British armies  
fighting in this area. The French  
have taken and passed Hincourt,  
and retained their hold on Esigny-  
le-Grand, four miles south of St.  
Quentin, by repulsing enemy attacks.  
The British, in their drive for St.  
Quentin, have reached Vermand,  
about six miles east of the Hinden-  
burg line, going through Cambrai,  
which, with St. Quentin forms the  
central key of the German defenses  
between La Fere and Ypres. Counter-  
attacks by the Germans in an  
effort to prevent the British from  
driving a wedge between Cambrai  
and St. Quentin, were repulsed near  
Gonzencourt. Unfavorable fight-  
ing weather has served as an aid to  
the enemy, but despite the rain and  
the stiffer resistance of the foe,  
Field Marshal Haig's men continue  
to make progress toward the Hin-  
denburg lines.

Artillery activity continues in the  
St. Gobain sector and also between  
the Aisne and the Vesle where the  
Germans are making a valiant effort  
to retain possession of the St. Go-  
bain and Chemin des Dames strong-  
holds and prevent the allies from  
forcing them to fall back all along  
their line east of Rheims. In the re-  
gion of Laffaux and in the Aisne  
area enemy attempts to approach  
new French positions were repulsed,  
the Germans losing 150 prisoners.

London, Sept. 12.—Attilly, Ver-  
mand and Vendelles, northwest of  
St. Quentin, have been captured by  
the British, Field Marshal Haig re-  
ported today.

On the front before Cambrai, the  
British crossed the Canal du Nord.  
Attacking during the night, the  
British seized the strongly fortified  
railway southwest of La Basse, in  
Flanders.

## ONLY HEART FAILURE WILL PREVENT VICTORY

Continued from Page One

Only national heart failure will  
prevent the victory.  
The world's resources are inexhaustible.  
The only thing that can prevent  
victory is a lack of determination.

## NECESSITY FINDS USE OF TIN MILK CANS

Rome, Aug. 16. (By Mail)—A  
most practicable and happy use has  
been made of empty condensed milk  
tins at Palermo, Sicily.

The American Red Cross delegate  
there writes that the tins had been  
collecting after milk distributions  
at the rate of 200 a week, and were  
carefully treasured because of the  
value of the metal. Recently a woman  
who was given milk with direc-  
tion to return the can, brought it  
back fashioned into a drinking cup.  
The top had been cut and turned  
back for a handle, the edges care-  
fully trimmed—and there it was.

In the American Red Cross canteen,  
or homes in Palermo are 946 child-  
ren, all of whom were in need of  
drinking cups. A rather expensive  
article to buy these days. This clever  
use of the empty milk can gave  
the Red Cross representatives an  
idea, and now all the children have  
individual drinking cups made from  
the empty milk tins at a cost of 15  
to 20 centimes (about 2 cents in  
American money) each for soldering  
and trimming.

## MEN OF DRAFT AGE REGISTERING TODAY

Continued from Page One

Further orders. In accordance with  
section 92, Selective Service Regula-  
tions, a day will hereafter be desig-  
nated by the provost marshal gen-  
eral when the mailing of question-  
naires shall commence and instruc-  
tions then will prescribe the time  
within which questionnaires shall be  
mailed by local boards. In pursuance  
of this order, questionnaires will be  
mailed by local boards during the  
time to be hereafter designated only  
to registrants of the ages hereaf-  
fore specified. Hereafter only the  
third edition of the questionnaires  
shall be mailed or delivered regis-  
trants.

## Days Pickings

—Russell Gray of Indianapolis,  
was the guest of relatives here yester-  
day.

—Mrs. M. M. Coyne and Miss  
Marcella Coyne have returned from  
a visit with relatives and friends in  
Indianapolis.

—Mr. and Mrs. Walter Brown  
have returned to their home in Un-  
ion City, after spending several days  
here with relatives.

—Carl Spivey went to Kokomo,  
Ind., today for a few days visit with  
his brother, Vernon Spivey, and  
wife, and other relatives.

—The Rev. M. W. Lyons was in  
Indianapolis today and attended the  
funeral services of Bishop Chatard  
at the cathedral this morning.

—P. A. Miller has returned to his  
home after being called to Richmond  
on account of the illness of his  
daughter-in-law, Mrs. Clyde Miller.

—Mr. and Mrs. James Sharp and  
family of Stickney, South Dakota,  
are visiting Mr. Sharp's parents, Mr.  
and Mrs. Al. Sharp of north of the  
city.

—Walter E. Smith has returned  
from Detroit, Mich., where he at-  
tended the national convention of  
the American Industrial Licensed  
Lenders association.

—Mr. and Mrs. Grand Carr and  
son Ralph, Mr. and Mrs. Sam  
Grimes, Daisy and Estella Carr and  
Roy Myers, of Indianapolis, have re-  
turned to their home after attend-  
ing the funeral of Mrs. America J.  
Carr.

### The Challenge Of Today.

The following couldn't happen,  
but try to imagine it.

Suppose the distressing element  
of warfare could be eliminated. The  
elements that would remain would  
make war an incomparable blessing.

Eliminate the pain of the wounded,  
the helplessness of the mutilated, the  
grief of the bereaved, the physical  
discomfort of the campaigner, and  
the sentimental regrets caused by the  
destruction of ancient landmarks.  
Everything else is clear gain.

For those of us who are not fight-  
ing there are more jobs than we can  
handle. Whatever we have in our  
makeup we can capitalize.

Can you add up figures? Very well  
be an accountant—we need you.  
Never kept books, did you say?  
That doesn't matter—we'll teach  
you.

Can you draw straight lines, or  
make circles with a compass? All  
right—be a draftsman. Never stud-  
ied trigonometry or physics? Oh,  
make a stab at it—we'll help you  
learn.

Can you run simple machinery?  
Inexperienced? You have hands and  
eyes, haven't you?

This is the attitude of the wartime  
employer. It is the only one he can  
take if he wants to get work done.

Never was an epoch so crowded  
with opportunity. It teems with in-  
spiration. All that we are, all that  
we can do, all the time we have need-  
ed. The sorriest attempt we can  
make at any kind of a job is accept-  
able, if it represents honest effort.  
Every chance is given us to qualify  
at something better than what we are  
doing. There are no nonentities—  
we are all personalities.

It is despondency that leads to  
suicide—the depressing monotony of  
a humdrum life. Fear of danger  
does not point to the open gas-jet or  
the laudanum-bottle. It is the misery  
of existence with prospects, the agon-  
izing sameness of the workday grind.

The treadmill will be out of fash-  
ion while the war lasts. Will it re-  
turn when the fighting men come to  
compete for jobs in civil life? In  
need not. It must not.

Here is a chance for some super-  
statesman. Whose gigantic intellect  
is to frame the economic formula?  
He will be a greater emancipator  
than Lincoln himself.

### They Perform a Service

There would have been neither  
good statesmanship nor sound mili-  
tary wisdom in the suggestion that  
members of the U. S. senate and  
house of representatives should be  
included in the draft, or if exempted,  
should waive the exemption and go  
into the ranks. Men who are now in  
congress or who may hereafter be  
elected are chosen for that service  
because they are deemed particularly  
fitted to represent their constituents  
in the halls of national legislation.  
Men who have already served one or  
more terms have gained an experi-  
ence of value to the nation and to  
themselves.

### THIS DAY IN THE WAR

Sept. 12, 1917

Kerensky made commander-in-  
chief of Russian armies.

Sept. 12, 1916

French capture Istomine, south of  
Combes.

Sept. 12, 1915

Russians take offensive from Riga  
to Rumania.

Sept. 12, 1914

French and British chase Germans  
across Alsace.

### Barrage

Thirteen Million More

By CHARLES B. DRISCOLL

No, autocrats of Germany, an' have  
you heard the sound?

Just put your royal ears a little  
closer to the ground:

You hear a tramp of marching feet,  
a distant, muffled roar?

Well, that's the mobilizing of the  
Thirteen Million More!

No doubt you know already what a  
million Yanks are like.

When for a just and righteous cause  
with holy wrath they strike.

They are rallying by millions, they  
are arming for the fight.

They will not lay their rifles down  
till this is settled right.

It's just a little incident that Thir-  
teen Million More

Are signing up against you as Ten  
Million did before:

For know you that this people is  
One Hundred Million strong.

And every one enlisted for the right,  
against the Wrong!

No, autocrats of Germany and ev-  
ery-other-where,

Your hour to leave the stage has  
struck! Of sudden death be-  
ware!

Democracy is rising with a rille in  
her hand:

She will not put it down again while  
Tyranny shall stand!

district in motion, and entailing ex-  
pense in holding the election. A  
special election takes 50,000 to 60,  
000 voters away from their tasks for  
half a day, and diverts the attention  
of voters from their usual work to  
the extent that they pay attention to  
the campaign. It would be poor busi-  
ness sense to take any elective fed-  
eral or state officer from his position  
to place him in the army. Not only  
would there be the loss of service of  
an experienced man, in the office to  
which elected but the trouble and ex-  
pense of choosing a successor could  
not possibly be justified by the addi-  
tion of a few individuals to the army.  
Congress wisely left the law un-  
changed and those members of the  
house or senate who are tempted to  
leave their posts of present duty and  
go into the ranks should give the  
welfare of the nation priority over  
their own personal inclinations.

### Objectors.

The proposal to send conscientious  
objectors to the farms as laborers  
has not yet received the hearty en-  
dorsement of the farmers.

The conscience that demands se-  
cure aloofness when thousands are  
making the supreme sacrifice is like-  
ly to be capricious even about farm  
work. It might object to spraying  
potato bugs and destroying chicken-  
lice. Farmers have no more time  
these days to argue with their help  
than colonels with their regiments.

In Europe they have partly solved  
the problem by putting conscientious  
objectors to work on mine sweepers.  
Here they perform important service  
for the express purpose of saving  
life, and never face the obligation of  
destroying even a potato bug. The  
objectors still object, but with less  
logic, if any, than before.

In a recent dispatch General  
Pershing mentions the successful op-  
erations of a squadron of 18 Ameri-  
can airplanes built at Dayton, Ohio,  
a factory which recently celebrated  
the completion of the 1000th aero-  
plane of the same type. The outcry  
about "no American airplanes"  
seems to be petering out just as did  
some other more or less artificial  
"standards."

The Germans are now said to be  
confiding in the hope that Mr. Hov-  
er's ministrations and England's  
great armament will make British  
armies strong and to some double  
the strength of the German army.

## You Don't Need Any of the "HUNGER SAUCE"

TO MAKE OUR GROCERIES EATABLE.

You want the best and here is the place to get them. They cost  
you no more than the other kind.

Extra Fancy New Crop Head Rice per pound	15c

We Carry Liability Insurance

# Farmers and Milk Producers of Rush and Fayette Counties

**On Thursday, September the 19th**  
**This Company will open a new and perma-**  
**nent receiving station for whole milk at**  
**Glenwood, Indiana**

## We Invite the Co-operation

of farmers in this important new undertaking. There is no reason why these two Counties should not become the best milk producing Counties in the State—and the most prosperous. This is easily possible, if you will take advantage of the opportunity we offer. We have come to Glenwood to stay and offer you a permanent milk market day by day, year in and year out.

## Sell Us Your Whole Milk

You will find it pays much better than selling cream only. We do not ask you to take our word for this. Give us a chance to prove it. Make a test for thirty days, and find out for yourself. At the end of the time, compare the size of your milk checks with your cream checks. Our automobile trucks will call for your milk every day. The following is our guaranteed winter price for the six months, ending March 1st, 1919—not less than

**65c per pound butter fat, guaranteed for 6 months**

Remember, we guarantee this price for whole milk, testing up to 5%, regardless of what the market may be in the meantime. We further guarantee that our price will at no time be less than 15c per pound butterfat above the Chicago butter market. For butterfat above 5%, we will pay Chicago butter market price. In other words, we take all the chance. You take none. On what other farm products, except wheat can you get a positive guarantee? And

remember, that we not only guarantee to take your entire output at a fixed price, but we will call for your milk each day and thus relieve you of all trouble of getting it to us and all trouble of separating and further details. Get ready now to sell us your whole milk, and notify us by mail or telephone, at Glenwood, so that we can include you on our truck routes. We make a charge of \$.25 per 100 pounds for delivery.

**We will furnish feed in  
small lots at carload  
prices.**

**We furnish you with pig  
feed to take the place of  
skimmed milk, dairy  
feed, calf feed and chick-  
en feed in any quantity  
you want at the bulk  
carload price. Ask us  
about this.**

**Honest tests, full weights, prompt settlements by check  
twice a month.**

## Polk Sanitary Milk Co.

**Operating Receiving Stations at the following  
Indiana points:**

Columbus  
Greensburg  
Glenwood  
Whiteland

Mooresville  
Willow Branch

Danville  
Edinburg  
Fortville  
Waldron

### SPECIAL

Wanted six men with Ford roadster or light trucks in different parts of Fayette and Rush Counties to haul milk from farms in their district to our plant at Glenwood. We guarantee route will pay not less than \$100.00 per month for four to five hours work per day. Call at our Glenwood plant for full particulars.

**Milk cans furnished at  
carload prices.**

We will loan you cans for the first thirty days without charge, and at the expiration of that time, if you decide to continue selling milk, we will furnish you with all the cans you need at the carload price, deducting their cost from the milk check.

We are so confident that once you start to selling milk, you will want to continue, that we will not ask you to furnish your own cans for the first thirty day period.

## M'CORMICK WINS OVER THOMPSON

**Illinois Congressman Nominated For  
United States Senator on Re-  
publican Ticket**

### CHICAGO'S MAYOR LOSES

**Senator James Hamilton Lewis,  
Without Opposition, Selected  
by the Democrats**

Chicago, Sept. 12.—Congressman Medill McCormick has won the Republican nomination for United States senator from Illinois. Primary returns indicated the victor would have a plurality of 50,000 or better over William Hale Thompson, mayor of Chicago, chief rival of McCormick in a sensational war-time race.

agers claimed a 4 to 1 ratio over Thompson in those districts. In Chicago the ratio was reversed, Thompson running ahead by about 3 to 1, getting his help from his own well constructed machine. Thompson's margin in this city is expected to be cut down considerably. Representative Foss the other republican candidate ran a poor third. Outside of Chicago he held his own with Thompson but his backers in the city were few. As soon as returns started it became evident that Foss was out and the race would be between the rivals, the one making his fight on his war attitude and the other not exactly in keeping with the times. On the Democratic end Senator James Hamilton Lewis has easy sailing. He was recommended with no opposition worth mentioning. Senator Lewis is now in France, having sailed on the same ship as the president-elect, Woodrow Wilson, and will be back in the country in a few days. His campaign was carried on by the regular republicans for McCormick. Where the German vote was large Thompson walked away with large pluralities. A striking analogy was discernible between the Thompson vote and the vote polled for the socialist "anti-war" judicial ticket last November. The twenty-second ward, which went socialist last November by 600, went completely to Thompson. The twenty-fourth, which went 1,500 plurality to the "anti-war" socialist stand, also went to Thompson. Other Tenthic wards went the same way.

**Harris Wins in Georgia**  
Atlanta, Ga., Sept. 12.—Unofficial returns from ninety-five of 152 counties of the state indicated that William J. Harris, former chairman of the Federal Trade Commission and endorsed by President Wilson, had carried seventy-one of the democratic senatorial contest. Senator Thomas W. Hardwick, who seeks re-election, apparently has a plurality in twelve counties. Republican James William Schley Howard, a multi-millionaire, carried the remaining counties.

senatorial contest because of a letter President Wilson wrote to Clark Howell, democratic national committeeman, in which he said he opposed the renomination of Senator Hardwick, whom he characterized as "a constant and active opponent of my administration."

**Colorado Governor Loses**  
Denver, Colo., Sept. 12.—Thomas J. Tynan, warden of the state prison, has been chosen the democratic nominee for governor, defeating Governor Julius Z. Guntz, on the face of incomplete returns from throughout the state. Oliver H. Shoup has won the republican nomination for governor. Lawrence Phipps of Denver has been named republican candidate for the United States senate. Senator John F. Shafroth was unopposed for the democratic nomination.

**Mayor For Governor**  
San Francisco, Cal., Sept. 12.—Francis J. Heney was selected as the democratic nominee for governor.

recent primaries Mayor James Rolph of San Francisco, received the highest vote for governor on the democratic ticket, but failed to obtain the nomination of the republican party, of which he is a member. The law provides that a candidate may be the nominee only of the party with which he is affiliated.

**Colter, Arizona Choice**  
Phoenix, Ariz., Sept. 12.—Incomplete returns from every county in the state indicated the nomination of State Senator Fred T. Colter for governor on the democratic ticket in yesterday's primary election. A question was raised, however, concerning Colter's eligibility because the legislature of which he was a member increased the governor's salary.

**WALKED FOR CHICKEN BINNER**  
Greensburg, Ind., Sept. 10.—Determined to ride by the airless Sunday and get out of the city, a man named a chicken dinner and Mr. Richard Anderson of the city walked to the city and back.

## BUTLER COLLEGE SEEKING STUDENTS

**J. E. Shockey Here Yesterday to  
Get Enrollments Under New  
Training Regulations**

### PURDUE HAS A BIG CLASS

J. E. Shockey, representative of Butler college, Indianapolis, was in this city yesterday securing scholars for the opening term at the college. Under the new regulations issued from the war department college draftees are allowed to begin or to continue their college courses by extending to them lengthy furloughs. The fact that a private pay board and lodging will be furnished to the uniformed students is a great drawing card as a promotion to higher education. Purdue university announced today that a freshman class of 1,200 students will be enrolled.

## Written on Faces-- Rheumatism

**You Can't Hide Rheumatism**  
It runs up into the nerves, causes the expression in the face, makes you look and feel sicker than you look, you rheumatism understand. But there isn't as much of it as there used to be. "Neutrone Prescription 99" has educated us to freedom of all rheumatism and its many ailments.  
"Neutrone Prescription 99" loosens those painful, swollen joints and muscles. You can distinctly feel all trouble leaving you and comfort and happiness creeping in. There is absolutely nothing else known like "Neutrone Prescription 99" for all Rheumatism.  
You can prove it, get a 50c or \$1.00 bottle of your druggist today.  
**FUTMAN & WILSON** and druggists everywhere. (Adv.)

## Hemstitching

**AND PICOT EDGE WORK.**  
We do this work in the best manner on all kind of material and at moderate prices.
